

# SCIENCE ON SATURDAYS

Saturday, April 8, 2023

Hands-On Demos 10 am, Lecture 11 am–12pm

Sterling Chemistry Laboratory

225 Prospect Street • New Haven

# AT YALE

## FUN SCIENCE LECTURES FOR “KIDS” OF ALL AGES

**Dr. Albert Ko**

(Public Health)

**How We Use Science to Protect People from Epidemics**

### About the Speaker

Dr. Ko researches health problems that result from rapid urbanization and social inequity. His research has led to community-based interventions for the current COVID-19 pandemic, and other epidemics. He advises the Governor and the State on its pandemic prevention and control plan.

**Admission is free  
and open to the public**

Hands-on demonstrations  
presented by Yale Chemistry  
graduate students

Hosted by Kurt Zilm
