

The invention of MK-7602
as an excellent case study to answer
a fundamental question:
What is required in a molecule
for it to be a drug?

Dr. Manuel de Lera Ruiz
Principal Scientist in Medicinal Chemistry, Merck

Dr. Cesar De Leon
Senior Scientist, Merck

A lunch lecture and discussion on the advances
of novel drug candidates against Plasmodium parasites

Thursday, October 5, 2023 Room 111, Sterling Chemistry
Lab, 225 Prospect St., New Haven, 11:00 am to 1:00 pm
Lunch will be served. Space is limited. Registration required:
